FOREWORD

India is emerging as a superpower in the world arena. Being a fast-developing nation, the country is making its way through the hurdles to gain a bright future in terms of science and technology. Indian society is quite eager to accept technology into their day-to-day life, as it makes life much easier in terms of communication and functioning.

New inventions in the field of science and technology are emerging from Indian students and experts, making the country to gain lime light in the world. Modern gadgets are introduced now and then in every walk of life, making life easier and solving many problems. The growth of technology today is sure to experience a boom for the country in future in almost all the sectors such as education, infrastructure, aviation, bio-science and medicine, information technology and other fields

We the citizens of the nation and who hold equal responsibility for the growth should equip our youth with all possible facilities for their research thirst and support and motivate them, as the future of our nation is in their hands and they could get our nation to more advanced levels than what it is today.

In this backdrop, a two days interdisciplinary national seminar on the theme “Future India through Science and Technology”- Challenges and Opportunities is being organized by Indian Science Congress Association, “Srinagar Chapter” in collaboration with Government College for Women, M. A. Road, Srinagar, on 23-24 March, 2019. The seminar will provide an opportunity to the scientists, teachers, researchers and students to scientific communication and share their research findings. The deliberations and discussions in this meet will definitely indicate the new dimensions in science and technology, and motivate the researchers to formulate the new directions of their ongoing and new research projects.

We invite you to participate in the said seminar by taking part in oral or poster presentation. We shall be eagerly looking forward to your visit to this happy valley called Paradise on Earth.

Kindly share the word about the seminar with your colleagues desirous of participating in this event.
